Recommendations for staff in COVID-19 suspected and positive patients areas

Always practice hand hygiene before donning PPE and after doffing PPE
Remove gown before leaving patient care areas

For general care of patients:

Full-sleeved impervious gown | Surgical mask | Face shield | Goggles

For aerosol generating procedures such as nasopharyngeal sample collection, oropharyngeal suctioning or assisted ventilation:

Full-sleeved impervious gown | N95 mask | Elastomeric respirator | Face shield | Goggles
