Metabolic Screening Panel

1. Complete Blood Count	Rs. 8,900	Rs. 7,120
2. Urine Detail Report		
3. Blood Glucose		
4. Plasma Ammonia		
5. Plasma Lactic Acid		
6. Arterial Blood Gases		
7. Electrolyte		

Recommended for children (neonates and infants) with:
Neurological deficits such as lethargy or involuntary movements,
failure to thrive or health deterioration after first feed.

Inherited Metabolic Test Panel

1. Urine Organic Acid	Rs. 10,900	Rs. 8,720
2. Plasma Amino Acid		

Recommended for children (neonates and infants) with:
High level of ammonemia, high or low blood PH, high anion gap
metabolic acidosis, unexplained hypoglycemia, unusual urine odor.

Paired CSF / Plasma Amino Acids Test Panel

1. CSF Amino Acid	Rs. 12,850	Rs. 10,280
2. Plasma Amino Acid		

Recommended for children (neonates and infants) with:
Seizures, drowsiness, neurological deficits such as lethargy,
involuntary movements or hiccups.
