(prices subject to change without prior notice)

Don't Take Risk, Get Your Heart Checked

A healthy heart is critical to proper functioning of the body and is important for your overall wellbeing.

The Aga Khan University Hospital offers a heart risk screening package to help you assess and protect your heart health.

The screening package includes the following:

- 1) Check-Up by a Consultant Family Physician
- 2) Blood Sugar Test (Glucose Fasting) - 12 hours fasting required
- 3) Lipid Profile
- 4) Creatinine
- 5) Electrocardiogram (ECG)
- 6) Calcium Screening Without Contrast
- 7) Breakfast
