# Our vision, mission and values

## Welcome to Aga Khan University Hospital

Aga Khan University Hospital (AKUH) services are based on the standards of the best healthcare institutions of North America as demonstrated by its Joint Commission International (JCI) accreditation. The University Hospital offers healthcare services that are relevant to the communities it serves in East Africa and beyond regardless of gender, faith or ethnic origin and has a robust patient welfare programme.

### Our Vision

To be the premier, tertiary, teaching and referral health care facility in sub-Saharan Africa.

### Our Values

- Ethics and Integrity
- Care, Compassion and Respect
- Empowerment and Accountability
- Excellence and Entrepreneurship
- Learning and Innovation

### Our Mission

**Aga Khan University Hospitals are private, not for profit, organisations with a mission to:**

- Strive for excellence in health care through the provision of the highest quality, expert, compassionate and ethical care to all patients irrespective of their background;
- Develop, implement and evaluate innovations in health care, research and education so as to improve the quality of people's health;
- Support the teaching, research and service missions of the University through an enabling and collaborative environment that motivates and inspires excellence;

- Provide access for needy patients who may not, on account of financial difficulties, be able to afford to pay for their care, and to reach out to those who might not otherwise present themselves at the Hospital;
- Contribute to the development of a system of health care encompassing primary, secondary and tertiary care, and not geographically confined to the Main Hospital Campus facility;
- Develop new services in response to public expectations on an economically viable and sustainable basis; and
- Implement strategies that demonstrate the ability of the institution to be self-sustaining in and supportive of health systems strengthening for the nation and region that it serves.

# Our vision, mission and values

## Our Guiding Principles

### Impact

As a teaching hospital, we are committed to training the next generation of leading medical practitioners in East Africa. We offer the best in training for medical specialists, nurses and technicians in the region.

### Quality

Our medical professionals are committed to providing patients with world class health care. The medical team consists of industry leaders specialising in different fields of medicine, enabling us to offer comprehensive medical services.

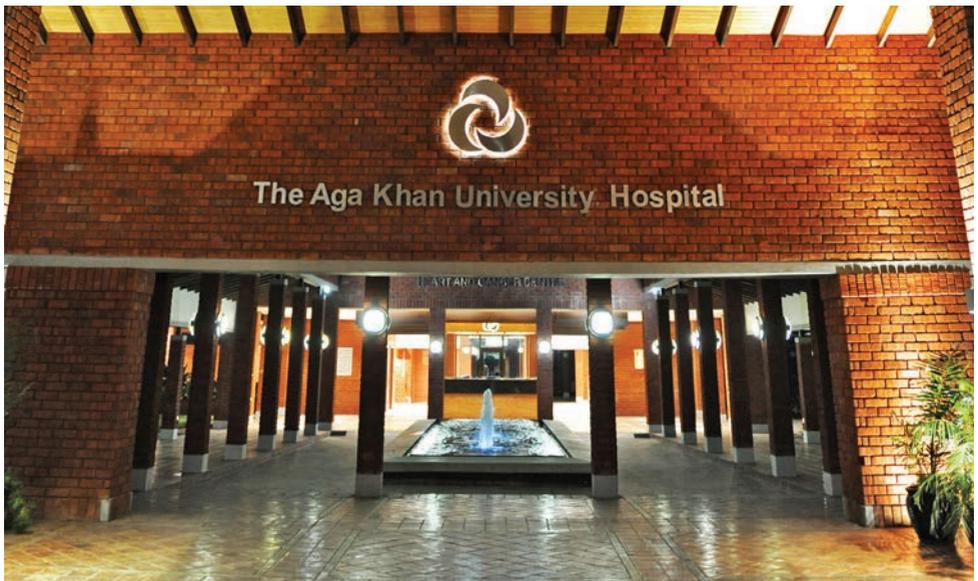

Our resident doctors, consultants and nurses possess internationally recognised credentials and AKUH actively supports their continuing education.

### Relevance

At AKUH, we are dedicated to identifying and finding solutions to the health and medical challenges faced by East Africa. We conduct and support research designed specifically to address the issues that impact the families and communities we serve. The work of our specialists has made contributions to the fields of cardiology, oncology, gastroenterology and neurosurgery.

### Access

AKUH is a private, not-for-profit institution committed to making high calibre healthcare and medical education accessible to all.
