Healthy Heart Basic Screening Package

Package Price: PKR 30,700

Cardiovascular disease is a leading cause of death in Pakistan. Most of these deaths can be prevented by adopting a healthy lifestyle. Manage your risk factors like high blood pressure, blood cholesterol, blood sugar, increased weight and obesity. Be mindful of your lifestyle habits – such as lack of physical activity, smoking, and use of alcohol – which may adversely affect your health. To know whether you are at risk of developing cardiovascular disease, get yourself tested. Screening tests will give you a clear picture of your heart health.
